Project Design Phase — Proposed Solution Template

Date	14 October 2026	Maximum Marks
Project Name	Metro Ticket Generating System in ServiceNow	2 Marks

Proposed Solution Template:

Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1	Problem Statement	Commuters need a faster, more consistent way to select a route, calculate fare and receive a metro ticket without relying on manual counter processes.
2	Idea / Solution description	Configure a ServiceNow catalog item “Book A Metro Ticket” with station references, journey choices, passenger count, fare calculation, payment selection and QR generation.
3	Novelty / Uniqueness	Combines Service Catalog configuration with route-specific client-side fare logic and QR-based digital ticket output.
4	Business Model / Monetization	For a real deployment, the platform could integrate with metro payment and ticketing systems; the PDI implementation is an educational MVP.
5	Success Criteria	Correct fare, simple user journey, reliable QR output, maintainable station data and successful UAT.
