Project Design Phase-II — Solution Requirements (Functional & Non-functional)

Date	14 October 2026	Maximum Marks
Project Name	Metro Ticket Generating System in ServiceNow	4 Marks

Functional Requirements:

FR No.	Functional Requirement	Sub Requirement
FR-1	Ticket Booking	Submit Book A Metro Ticket with source, destination, journey and passenger count.
FR-2	Station Data	Use Metro Station's Details as the reference source for station selection.
FR-3	Fare Calculation	Calculate route fare based on source, destination and journey type.
FR-4	Payment	Provide payment-related choices before checkout.
FR-5	QR Ticket	Generate and display a QR-based digital ticket after checkout.

Non-functional Requirements:

NFR No.	Requirement	Description
NFR-1	Usability	The catalog form should be simple and understandable.
NFR-2	Performance	Fare updates should occur quickly after user selections.
NFR-3	Maintainability	Station master data should be maintained independently of the catalog form.
NFR-4	Security	Access to station administration and production payment services must be protected.
NFR-5	Scalability	The design should allow additional stations, routes and ticket rules.
